

Insect Trap

Insect Trap Light

Is a compact solar trap light designed for greenhouses and open-field cultivation. With integrated solar charging, dual light modes, and versatile installation options, it offers an eco-friendly, chemical-free solution for insect management...

-Solar powered: Integrated solar panel with rechargeable battery, no external wiring

-Dual spectrum control, switch between yellow and blue light for different pest targets..

-Eco-Friendly efficiency reduces pesticide usage and increases trapping efficiency up to 4.8x.

-Durable design IP65 rating for reliable outdoor performance.

Insec Trap Light

Spectrum	Blue / Yellow
Operation Time	4 H
Charging Time	6 H
Power	0.2 W
Battery	300mA / 1.2 V
Dimensions	118 × 67 × 39
Weight	0.1 kg
Beam Angle	120°
IP Rating	IP65
